SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a revision and extension of a currently approved information collection.

National Oceanic and Atmospheric Administration (NOAA) Office of Coast Survey is the nation's nautical chartmaker, maintaining and updating over a thousand charts covering the 3.5 million square nautical miles of coastal waters in the U.S. Exclusive Economic Zone and the Great Lakes. Coast Survey also writes and publishes the *United States Coast Pilot*®, a series of nine nautical books that supplement nautical charts with essential marine information that cannot be shown graphically on the charts and are not readily available elsewhere.

Revision: Until recently, Coast Survey asked readers of the *Coast Pilot* to submit corrections or reports of inaccuracies by mailing or faxing a printed form found in the book. That form was discontinued. Now Coast Survey solicits information through the online Nautical Discrepancy Reporting System (<http://ocsdata.ncd.noaa.gov/idrs/discrepancy.aspx>).

The data obtained through this system is used to update U.S. nautical charts and the *United States Coast Pilot*.
